

Service Options

Cordless Phone Communicator

Pair Manitoba's leading personal response service with a cordless phone designed just for you

How you'll benefit:

- Along with all the Lifeline features that increase peace of mind for you & your loved one, the Cordless Phone offers a well designed & innovative telephone for your home.
- Large buttons are easy to read and press, making dialing easy. A large high contrast screen displays Caller ID or the number you have dialed.
- Voice amplification on the handset and speaker phone enables easy to hear, clear conversations.
- A light, specially designed handset and base make it easy to pick up, hold, and dock the phone.
- Compatibility with our standard & [AutoAlert](#) Personal Help Buttons.
- Unlike other Cordless Phones on the market, the Lifeline Cordless Phone even works during a power outage*

*Requires working phone service, provides up to 30 hours of backup power for help calls and up to one hour of regular phone calls during a power outage.

Personal Help Button Options:

NEW Lifeline with AutoAlert Personal Help Button
