

## Service Options

### *Lifeline with AutoAlert Option*

## **What would you do if you fell in your own home?**

*Live independently and safely with Victoria Lifeline's new AutoAlert option, knowing your button can call for help – even if you can't.*

This year, one out of every three Manitobans over the age of 65 will experience a fall. What would you do if you fell in your own home?

A simple fall can cause pain and injury, and may leave you disoriented, unconscious, immobilized, and worst of all: unable to push your personal help button.

Take the worry out of living alone with Victoria Lifeline's new AutoAlert option. You have the reassurance that comes with our [standard service](#) of having caring Victoria Lifeline professionals available 24 hours a day, seven days a week who can access the assistance you need – plus an added layer of protection. Victoria Lifeline's AutoAlert is the only pendant-style help button that can automatically place a call for help if it detects a fall and you are unable to push the button yourself\*.

### **Pick a Lifeline communicator/unit:**

Cordless Phone  
Basic Communicator

*\*No fall sensors on the market today can detect 100% of falls. In extensive testing conducted by Philips Lifeline most falls were accurately identified AutoAlert. If able, you should always push your button if you need help.*
